## EATON'S CATALOGUE

**I**N PRESENTING THIS CATALOGUE we wish to call your attention to its increased size and the superior quality of its contents, a careful perusal of which will readily convince you that it is much more comprehensive than any we have previously issued. It should prove of two-fold interest to you, namely, in so far as quality and prices are concerned. It has been our constant endeavor to produce a Catalogue from which Mail Order Shopping can be done with the same ease and satisfaction as if the goods were actually displayed before you. We want you to know that the goods illustrated herein and described are packed up by a house that handles only first quality, standard, reliable merchandise. No matter from what department you may order you have the assurance that the goods will open up even better than we represent them here. It is not our policy to over-describe the merits of our merchandise, we would rather let it speak for itself. You will find in dealing with us no stone is left unturned to serve you with complete satisfaction, and that no matter where you have been buying in the past you will find advantageous features in our merchandise, our service and our prices.

The merchandise listed herein is truthfully described, faithfully illustrated, arranged and classified so that you can place your orders with the utmost satisfaction and convenience. A catalogue and a house that can accomplish so much and continue to gain more and more business must have the goods, the prices and the service that the people want.

**Our Merchandise**, our enormous buying facilities enable us to sell goods of the highest quality at most reasonable prices; furthermore, many of the lines listed within are **made in our own factories** where we personally supervise the qualities of all raw materials used, the styles adopted and the workmanship executed, the inevitable result being that we pass the finished product on to you with the utmost assurance as to its superior quality and at the cost of production plus one and **only one small profit**.

If you have not been getting merchandise of the right quality or at the right price we assure you that this catalogue contains both remedies, and we solicit a trial order as a measure of convincing you.

**OUR POLICY.** We have always rigidly adhered to one unchanging policy, namely, the best goods from the best factories direct to **EATON'S** customers, at the lowest prices for cash, large annual sales, small margin of profit, nothing added to **EATON'S** prices to balance the losses of the credit system, nothing added for premiums or commissions.

We wish to assure you that every service, courtesy and economy which is extended to the customers who regularly visit our store is extended with equal promptness to each customer who utilizes the convenience and money saving advantages of our Mail Order Service.

### Our Guarantee

We are thoroughly convinced as to the merits of our goods and are more than anxious to convince you. You need have no hesitation about sending us an order as our guarantee is such that you are running no risk whatever.

On receiving a shipment, if the goods do not open up to your satisfaction write your name and address on the outside of the package and return them within ten days in good condition, stating why they are returned, and we will pay transportation charges both ways and exchange or refund the money in full. We make exception only on certain goods that we do not exchange, a list of which is given on page A III.

### Our Free Delivery Offer

We prepay Freight or Express (we reserve the right to ship the cheapest way) on orders of \$25.00 and over going forward in one shipment, to your nearest railway station in Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island, on all goods except Furniture, Springs, Mattresses, House Mantels, Refrigerators, Pianos, Organs, Stoves, Baby Carriages, Salt, Sugar and Cereals.

If you instruct us definitely to ship your order by express, or if you mention that you want it by a certain date and we find it will not get there by freight in time, we will ship it by express, but will prepay only the amount it would have cost us had the order been sent by freight, you paying the difference.

#### Christmas Catalogue

Our Christmas Catalogue will be sent upon request only. Will be ready for mailing November 8. Drop us a post card at any time and we will put your name on file so that you will be sure of receiving a copy of this Christmas number. This Catalogue will be full of suggestions for Christmas gifts and remembrances great and small for all.

#### Book Catalogue

To meet the requirements of our many book customers we have issued a special book catalogue, which contains a detailed list of our extensive stock of books. This catalogue will be found very useful in choosing books for Sunday School prizes, Gifts, etc. It also contains lists of educational and standard works, in fact every line of literature. Write for this book catalogue, it is sent free on request.

# INSTRUCTIONS FOR BUYING BY MAIL

1. Do not enclose Cash unless letter is registered. Send Express or Postal Orders if possible, if amount is under \$1.00 send Postal Notes. Do not send stamps in large quantities.

2. Do not fail to give size or color of goods requiring same and, when ordering from samples, be sure to enclose same, marking each sample second or third choice. (Read particulars "How to Make Out Order.")

3. If Order is to be sent by mail be sure to send sufficient money extra to pay postage. (Read particulars "Mail Shipments.")

# 6

Important  
Points

4. Check your extension and total your orders carefully. (Read particulars "How to Make Out Order.")

5. When returning goods always write your name and address on outside of package and return the bill. Tell us the reason why goods are returned, and what you want done. To get the benefit of free transportation goods must be returned within ten days after you receive them.

6. Always send your orders in from the one family, with the same name and initials, this will avoid sending more than one catalogue to each house.

## How to Send Money

For small amounts use the Postal Notes.

We strongly advise you to send by Express Money Order, Post Office Money Order or Postal Note, which can be procured at your Express Office or Post Office at a very small cost. This is absolutely safe, for if the letter is lost we can easily procure a duplicate. The charges are as follows on Express and Post Office Orders:

\$5.00 and under.....	3c	Over \$10.00 and up to \$30.00.....	10c
Over \$5.00 and up to \$10.00.....	6c	Over \$30.00 " " \$50.00.....	15c

Charges on Postal Notes are:

From 20c to 40c cost.....	1c	From \$2.50 to \$5.00 cost.....	3c
" 50c to \$2.50 cost.....	2c	" \$5.00 to \$10.00 cost.....	5c

If it is not convenient to obtain any of the above, put money in an envelope, see that it is carefully sealed and be sure to have your post-master register it. The cost for registration is 5c.

**Do not send cash without registering. If letter is lost the post-office cannot trace it and you will be at the loss.**

We accept Bank Drafts and Marked Cheques payable at par in Toronto, Canada.

## Mail Shipments

**Light Goods and Small Orders** may be sent by mail. We take all the risk if you will enclose 2c extra for delivery guarantee and we will duplicate your order promptly if it is delayed or lost in the mails.

**Be sure to send sufficient money extra to pay postage and any balance will be returned to you in cash when order is shipped.**

**The Rate on Merchandise By Mail** is 1c per ounce, on books and printed matter ½c per ounce or 8c per lb. allowing extra for packing. As the postage must be prepaid, if sufficient money is not allowed it necessitates our omitting some of the goods to cover postage. We would recommend you **when possible** to make up a larger order and have goods sent by Express or Freight, which is more profitable, as the limit of weight by mail is 5 lbs. per parcel and the limit of size is 30 ins. in length.

**Delivery Guarantee**—For 2c extra we will guarantee the safe delivery of each order of 50c or over if sent by mail. We will deduct 2c from your remittance for this purpose unless otherwise instructed.

## Enquiries About Orders

Should you not receive your goods or hear from us within a reasonable time, write us giving full particulars, with copy of the order and, if it has been received by us, we will adjust promptly.

When writing us in reference to delay, advise us from what Railway Office you made the enquiry.

On receipt of goods if anything is wrong write us at once, giving us the order number and particulars. Our aim is always to satisfy our customers, and all we ask is the opportunity to do so if you are not satisfied.

**All claims must be made within 10 days after receipt of goods.**

**We do not connect or enclose orders when received under separate covers.**

**We do not pay the difference of express charges on free delivery orders when goods will go cheaper by freight, and we only prepay to your nearest railway station.**

**We do not pay wharfage or insurance charges on Boat shipments.**

In case of claim for refund of charges collected in error by the Railway Company, be sure to send us the receipt, and refund will be made at once. We do not pay the charges on C.O.D. orders.

In case of shortages, before writing us, be sure to examine the packing carefully, and tell us the number of parcels or pieces received.

## Sending for Samples

**When sending for Samples be sure to give the Catalogue Number of the material you require.**

We will sample only goods that are Catalogued.

We cannot send samples unless Catalogue number of material or garment is given.

Do not send for samples before you need them and, when received, order at once to avoid disappointment.

We do not sample bargain goods advertised in Toronto daily papers.

To avoid the trouble and delay of sending for samples, if it is more satisfactory to you, **"we will give you the benefit of our liberal guarantee."** If the goods you order are not satisfactory, we will exchange or refund your money and pay all transportation charges.

## Unprofitable Mail Shipments

There are quite a number of articles that are unprofitable to be sent by mail, such as Scribbleds, Notepaper, Liquids in Bottles, etc. We would advise when ordering such to make your shipment of other goods large enough to have these small articles sent by express or freight.

## How to Make Out Order

1. Be sure to give the Catalogue Number of article. Always state the amount of money you enclose.

2. Write distinctly. Use our order forms; if you have none, plain paper will do. We supply order forms free on request. If plain paper is used follow the arrangement of our order form as nearly as possible.

3. Be sure to give your name and address, and always order under the same name and initials from the one family. This will save us sending more than one catalogue to a family, and will keep our lists correct. Advise us of any change in your address.

4. **Be sure to give all sizes, colors or measurements, as without this information it is impossible for us to fill your order.** For instance, we could not fill an order for a pair of gloves if customer neglected to give size or color.

5. **See that your name and address is correctly and plainly written.**

6. **If you wish your order shipped by Express or Freight fill in on Order Form under shipping instructions your nearest Railway Station, and in all cases fill in the distance to your station.**

7. **If there is no Express or Freight Agent at your station allow sufficient money for us to pay charges.**

8. **Goods put off at Flag Stations will be at customer's risk.**

## Club Orders

If you cannot make up a shipment to weigh 100 lbs. or get the advantage of our free delivery, we advise two or three clubbing together and having goods shipped to the one address. We mail a statement to the sender showing the amount of money received and the amount of goods sent to each customer. All correspondence and money to be returned is sent to the sender of the club.

**All Orders Must be Mailed at One Time and in One Letter**

This is very important, as we do not hold the order and cannot enclose any orders coming in later. They will be sent separately if received.

**Each Order Must be Written on a Separate Sheet, just the same as a Single Order, giving Name and P.O. Address**

## TO THE SENDER

We appreciate the work you have in getting Club Orders together and we would be pleased to receive any suggestions from you that would improve the handling of Club Orders.

After you have adjusted any money returned, if any individual member complains of shortage of goods, have them write direct to us. This will save you any further trouble.

See that each individual marks on her order the amount of money sent, you to send us the total amount in Express or P.O. Order, entering the total on your order and giving us full shipping instructions.

## A Nos Clients Francais

Nous préférons que vous nous écriviez en Anglais, mais si vous ne pouvez pas, alors veuillez écrire en Français. Nous avons ici des traducteurs pour vous répondre en Français si désiré.

Lorsque vous donnez des commandes par la malle, soyez bien sûr d'envoyer un montant suffisant pour couvrir les frais de poste, nous vous retournerons le surplus.

En retournant les marchandises, soyez bien sûr d'écrire votre nom et adresse sur le dehors du paquet et soyez certain de retourner la bille.

## Customers' Deposit Account

**How to Save Cost of Money Orders and Earn Five Per Cent.**

We have in connection with our store a Customers' Deposit Account Department, which is conducted as follows: Send a deposit with directions to open a Deposit Account. You will receive a pass book, on which will be given your D.A. number.

Send your orders in, and when you want them charged, be sure to clearly state so always giving your D.A. number.

You can send new deposits as often as you like and continue to charge your orders as long as you have money left; a statement will be sent you monthly showing purchases and amount at your credit.

Your money can be withdrawn any time by asking us to remit. Five per cent. interest will be allowed on your average daily balance, up to \$500.00, and same will be compounded half-yearly and credited to your account.

The instructions to charge must be given over the signature of the one opening the account or by a person who has been properly authorized to use it.

# INSTRUCTIONS FOR BUYING BY MAIL

## Substitutions and Omissions

If the goods you order are out of stock, we will, unless you tell us not to, send similar goods of a better quality for price allowed, you having the privilege of returning the goods at our expense if they are not satisfactory.

When any of the goods you order are not in stock, and we will have them in a few days, we will ship your order short these goods with an explanation that they will be forwarded later, we paying any extra charges incurred.

Other omissions are caused by customers not allowing sufficient money for postage or charges where shipment has to be sent prepaid.

## Freight Shipments

Try to make up your shipments to weigh 100 lbs. or over, as the charges by freight are the same for 25 or 50 lbs. as 100 lbs. This can be done by adding groceries or any staple household goods. Make your order \$25.00 or more, so that you can get the advantage of our Free Delivery Offer.

Read the new saving to customers on freight shipments, regarding free cartage, on page A1.

If your order is under \$25.00, and there is no agent at your station, send sufficient money to prepay the charges, otherwise your goods will be taken to the nearest regular station.

Do not sign for goods if damaged until agent makes a notation on your bill, then write us and return the bill, we will adjust at once.

## When Re-ordering Samples

If your request for samples fails to reach you within a reasonable time, write again giving catalogue numbers and full particulars the second time. Do not fail to repeat your order in full when making complaint, and we can then fill your order without the delay of writing to you for particulars. If you neglect this you must wait until we have secured full information.

When ordering be sure to tell us the station you want goods shipped to.

## Returning or Exchanging Goods

1. When returning goods write plainly your name and address on outside of package.
2. Tell us the reason why you are returning them, and what you want done.
3. Send parcels 1 lb. or under by Mail. From 1 to 20 lbs. will usually come cheaper by Express. Over 20 lbs. return by freight.
4. WRITE ONLY ONE LETTER giving us instructions.
5. If goods are returned by Express, enclose the bill with instructions in parcel. If returned by freight enclose bill in shipment and write us by letter.
6. If returned by Mail, enclose the bill in parcel, and send us instructions under separate cover by letter as the Post Office will not allow any correspondence to be put in parcel.

To receive the advantage of our "Liberal Guarantee" goods must be returned within ten days after receipt of same.

**Goods Not Exchanged.**—We do not exchange or allow transportation charges on the following for sanitary and other reasons: Goods made to order according to your measurements. Cut Goods sent according to samples. Garments that have been worn. Veils, Hair Goods, Toilet Goods, Brushes and Combs, Rubber Goods, as Syringes, etc., Mattresses and Pillows, Music Goods not catalogued which have been procured specially to your order.

## When Returning Goods

When you have occasion to return goods by mail, write your name on the outside of the package and enclose the bill, but do not put any writing in the package. If you fail to write your name on the package, we are compelled to wait until you write particulars before we know from whom the goods are sent. Do not forget to put your name on package, and we shall attend to your desires without delay.

## Express Shipments

Be sure to give us the Express Office you want goods shipped to, when ordering

As a general rule the most profitable and satisfactory way to send orders weighing from 2 lbs. to 25 lbs. is by Express. The Express Companies give a prompt service and an absolute guarantee of safe delivery.

If there is no Express agent at your station or wharf send sufficient money to prepay the charges or your goods will be left at the nearest Express Office.

**Women's Stylish Coats**

Many people marvel at the low prices at which we sell these high class Coats. The principal reasons are: economy in the buying of materials, ordering them in large quantities direct from the mills, and receiving large discounts for cash. Another big saving is effected by having our own factories in which to manufacture these garments, thus saving all unnecessary expense between maker and wearer.

**How to order Hair Goods by Mail.**—Choose the style and number required. Send a sample of the hair, NOT FROM THE ENDS, but from the roots, close to the scalp, for the ends of the hair, as a rule, are lighter than the roots. It is preferable to have the artificial hair always a shade darker as it gets lighter with wear.

**EATON'S Quality Switches**  
Our Switches are made of the best quality wavy or straight hair as required, no inferior hair being used in our workrooms.

We make our switches from hair the lengths given, but making up the switches shortens it a little, so that a 16 in. switch would not measure quite that length.

## BIG SAVINGS ON THIS WORSTED SUIT

E3-3. Smartness and individuality are strongly emphasized in these nobby three-button men's suits as illustrated in cut E3-3, and to say the least they will be very popular this season. Made in the popular and favorite single breasted sack style from fine imported English fabrics in a worsted finished effect, one shade is a beautiful dark olive ground with green and purple pin stripes and the other pattern is a fine black ground with purple and green Celtic woven stripes. Both shades are very beautiful and in the suit have a very decidedly smart and nobby effect and will give any amount of good wear. The trimmings are excellent and the suits are finished and tailored in the most up-to-date manner. We positively guarantee to fit you or refund your money and pay the transportation charges both ways if suit is not entirely as represented or satisfactory to you. Style as cut E3-3. In sizes 34 to 44 chest, longest leg measurement is 34 ins. inside seam. No special sizes.

# OUR CELEBRATED BRAND OF CLOTHING

You know that cloth shrinks, but perhaps you are not acquainted with this piece of information:

The cloth used in all **EATON Brand Suits** is shrunk to the limit; steamed and then passed around a series of rollers; this secures

uniformity, clean-lines and thoroughness in the operation and is a sure preventative against the slightest shrinkage of the goods all the while you wear the garments.

That our splendid success in the making of **EATON Brand** clothing we owe to our system of specializing; and going the whole way in doing it, not just a collar or shoulder specialist, but in the—making of the pockets and flaps; the basting of the edges before

stitching; the basting of the linings; the making of sleeves; the hand-moulding and trimming of the lapels; the button holing (all done by hand).

E3-38

Take a look at the interlining of an **EATON Brand** coat. First the haircloth—a springy, light-weight material, thoroughly shrunk, prevents coat from crinkling and creasing; this we run right down the fronts from top to bottom and into the edges, (The usual way is to run haircloth only to the first button, and that's why in the course of time ordinary coats begin to wrinkle). That never happens in **EATON Brand** clothing; the button holes are worked through this haircloth and the buttons sewn on and through it. Thus we take every possible precaution to prevent creasing in any part of the garment. And to prevent the haircloth from fraying we build each edge with a special machine,

# EATON WATCHES

## FOR MEN AND WOMEN GUARANTEED TWO YEARS

### THE GROWTH OF THE EATON WATCH

It is about one year since in issuing this Catalogue the period of guarantee of all EATON Watches was doubled and since that time the confidence of the public in the EATON Watch has increased in the same proportion. Why? It is not simply because that for a period of two years purchaser of an EATON Watch is entirely secured by a written guarantee from any expense for cleaning or repairing (outside of breakages), but it is because the watch itself is of such a high grade that we can afford to give the buyer this extra protection, which is not given with any other make of watch. When, after a long and patient search, a movement was found that, because of its fine construction and parts, and thorough workmanship and finish, we believed to be without an equal, we secured it, absolute control and advertised its merits fully, but straightforwardly. But it is the watch itself that has been its strongest and best advertiser, and it is to the watch itself we owe its great demand. We made the claims, IT PROVED THEM. This is the reason why people wanting a watch that for accuracy and general reliability, neatness and finish, must be up to the standard, buy an EATON Watch, and this is the reason for the exceptionally large growth in sales the EATON Watch have had in the past year.

#### THIS FINE EATON 15 JEWELLED MOVEMENT

16 SIZE OPEN FACE

FITTED IN A GOLD FILLED  
COMPETITOR CASE FOR

S1-921. This 15 jewelled nickel movement fitted in our own Competitor gold filled case completes a watch that for the moderate price quoted of \$8.50 we fully believe has not its equal. The illustration on the left of the movement alone shows the exposed winding wheels, Breguet hair spring, compensating balance wheel and the general model of this thoroughly modern timepiece. The beautifully damascened plates show the absolute care that has been taken in the manufacture and finish of this particular movement, which only emphasizes the fact that the more vital parts which cannot be seen are of a very high standard. This movement carries a written guarantee for two years and is fitted

In one of our own Competitor gold filled cases, as described below, for the moderate sum of **8.50**

We have experienced some trouble in the past six months by our gold filled cases not being stamped as a 20 year or 25 year case, as in previous years. This we wish made plain, is because of the new Canadian Law known as the Stamp Act, which prohibits any marking or stamping of gold filled goods as guaranteed for any period.

Our Competitor gold filled case is in every particular identically the same as those previously known as a 20 year case, and the same care is taken in the manufacture and finish of each that would be shown to solid gold cases. No other firm sells the Competitor cases, they are controlled by us.

Hunting Case \$3.25 Extra.

#### THE EATON 17 JEWELLED ADJUSTED MOVEMENT

12<sup>50</sup>

S1-923. A movement of this grade was taken out of stock at random and sent to the Kew Observatory, London, England, where it was subjected to a six weeks' actual test by the Observatory authorities and received the highest award as the most accurate timekeeper. This

movement is manufactured solely for us and we have the absolute control of its sale. Special attention has been paid to the setting of the jewels, as by referring to the illustration, it will be seen that they are secured by small steel screws. It has steel exposed winding wheels, compensating balance, Breguet hair spring, latest improved regulator, is specially adjusted and has solid nickel richly damascened plates. Another particular feature of this strictly high grade movement is the real double sunk dial which removes all danger of the hands catching and comes with either Roman or Arabic figures. It is covered by our special two year guarantee and fitted in a Competitor gold filled open face stem wind and pendant set case. Your choice of engraved, engine turned or plain polished. Our special price **12.50**

#### HIGHEST GRADE EATON WATCH

EATON GOLD FILLED CASE

16 SIZE OPEN FACE

23<sup>00</sup>

S1-923. This is our highest grade gold-filled watch and as a time-piece is unsurpassed even by the most elaborate solid gold watches that cost in the neighborhood of \$50.00 and in many cases even more. The case of this watch is stamped EATON and is the very best gold-filled case manufactured, and to all practical purposes and appearances is as good as the gold cases, and if properly used will last a young man until the prime of life. These cases are specially constructed for us and every part whether in the stem winding or setting or in the fitting of the crystal must be up to the EATON standard to pass inspection. You have your choice of engine turned (as cut) or plain polished or engraved case. If your choice is for an engraved case we take care to select one which in our judgment will please you, as it is not advisable in watches to order exactly as cut as no man wishes a case the same as his friend's but **Your Order will be filled with Engine Turned Case Unless Specified Otherwise.**

The movement of this handsome watch is an EATON 21 ruby jewelled (screw settings), magnificently damascened plate steel exposed winding wheels, compensating balance, Breguet hair spring, latest improved regulator, etc. It is also adjusted to temperature and five positions and has a genuine double sunk dial with either Arabic or Roman figures. The case of this watch is solid nickel, screw back and bezel—inexpensive but perfectly made, stem wind and pendant set. Although made purposely for the rough every day use of the tradesman it is nicely finished. The real value is not in the case but in the movement, which is an EATON 15 jewelled nickel, carrying with it the special EATON 2-year guarantee which is twice as long as the usual guarantee given with most of the best watches of other well known makes. If through any fault of workmanship, construction or material in any one of these watches it proves to be unsatisfactory in any way you are free to return it at our expense and we will exchange the movement for another or refund money if necessary. We claim this to be the **Best \$5.00 watch value on the market. Can you better it?**

We can fill any prescription from your oculist or physician. Save the broken lenses, send them to us and we will duplicate. Write us for any information on spectacles or eyeglasses, re prices or cost of repairs. Send for test card for testing eyes for ordinary reading glasses. We grind our own lenses on the premises. **The Blazed Trail**  
By Stewart Edward White.

The Blazed Trail, mingles the romance of the forest with the romance of man's heart, making a story that is big and elemental, while not lacking in sweetness and tenderness. It is an epic of the life of the lumbermen of the great forest, permeated by out-of-door freshness and the glory of the struggle with nature.

### TRADE MARK

We have arranged with one of the largest Firms in the piano trade for the special construction of this Piano to bear our trade mark and guarantee.

These Pianos packed for shipment weigh 600 lbs.

YOUR CHOICE OF EITHER THE COLONIAL OR LOUIS XIV. STYLE **185<sup>00</sup>**

### DESCRIPTION

**THE CASES** in which EATON Pianos may be had are styles "EATON Colonial" and "EATON Louis XIV." Each one is made in keeping with the grade of the instrument and yet either one of them is an ornament in any home and a source of pride to the owner. Cases are double veneered in crossbands both inside and outside, to do away with the possibility of their checking or splitting, and to add to the finished appearance of the piano, and are finished in finest Brazilian Mahogany and French Walnut. Trusses, pilasters, moulding, etc., are cut from solid Mahogany and Walnut to match wood in cases.

**THE ACTION** of any piano is a very vital part, as the satisfactory production of music depends upon the way it is balanced and adjusted, and upon the quickness with which it does the player's bidding. The EATON Colonial and Louis XIV. styles are fitted with actions of the very best grade only. Sockets are set in brass and attached to brass flange rail throughout the action.

**THE HAMMERS** used in the EATON Colonial and Louis XIV styles of pianos are warranted Wicher felt and made as follows: the head of each one is covered with a hard inner layer of felt, and over this there is an outer layer of soft first quality felt of great durability. It is the hammer that strikes the string when you press your finger on any white or black key. There is one hammer for each key, and the quality of tone produced depends very much upon the way the hammer is constructed and upon the kind of felt used.

**THE KEYS** There are eighty-eight keys on a full size 7½ octave piano as the EATON, and fifty-two of these are white and thirty-six are black. The white ones on the EATON are covered with genuine polished ivory. The black keys are made of real ebony and not of some imitation wood as is frequently the case.

**THE PEDALS** Each piano is fitted with the latest Norris patent noiseless pedals.

Full set of copper wound strings in each piano. All tuning pins are bushed in hard Rock Maple through the iron frame into cross-handed wrest plank, which is, in turn, supported at the back by six hardwood posts.

**THE TONE** is, of course, the most important consideration when selecting a piano, at least it is one that should receive careful thought, and in this piano we have used our very best endeavors to produce an instrument at a low figure that would not be lacking in this respect. We can therefore guarantee this instrument to possess a tone, full, round powerful, and at the same time, sweet and melodious. Altogether the piano is strictly high grade in tone, construction and finish. We warrant it to be entirely as represented in every respect, such warranty extending over a period of ten years from date of purchase.

**WHEN YOU BUY AN ORGAN** or any other musical instrument for that matter, you should first of all consider the question of tone. # THE ACME B CAST IRON RANGE—FOR WOOD ONLY

THE *Acme B* Range has been made especially for our trade where a wood burning range is desired. It is a cast iron range with a regular wood firebox. The firebox is lined throughout with cast iron linings. The bottom of the firebox is made slightly lower than the bottom of the feed door to prevent ashes falling out when opening end door. The boiler door is hinged, making a very convenient and desirable opening for broiling or toasting. Each range is sent out complete, with a bailed handle ash pan, nickel plated poker and lifter. The reservoir is lined with 14-oz. copper, tinned on the inside. We guarantee these ranges to be good cookers and bakers where wood is the fuel. The firebox is large enough to heat the oven properly, and is economical in the use of fuel. The oven is square. Each range is carefully inspected before being sent out.

## HURON RED HOT WARM AIR FURNACE

A Powerful, Economical and Durable Furnace at a Greatly Reduced Price

The Radiator and combustion chamber are combined, the radiator being very large and having a triple radiating surface. The Flue is horseshoe shaped, the air supply passing up through the radiator as well as around it. This affords an unusually large area of surface exposed to the direct influence of the products of combustion. A Cut-off Plate and the smoke collar are placed at one side of flue, thus compelling all the smoke and gases to pass entirely around the radiator, preventing the possibility of one-half of the radiator being ineffective on account of the tendency of the draft to go around one side only, which is the case when the draft is divided at the front. This furnace has a large convenient feed door.

The Radiator is made of a very heavy sheet steel with cup joints imbedded in grey iron, top and bottom, which make it thoroughly gas proof and add durability. It is easy of access for cleaning.

The Furnace is provided with revolving triangular grates of the very latest pattern; grate bars can be removed when furnace is in use. It is provided with a deep ash pit, dust flue and sectional fire pot. These furnaces are quite low and are therefore especially useful in low cellars. They are very easily mounted. Each furnace is shipped complete with poker, water pan, chain, pulley, regulator plate, shaker and smokepipe damper. Made in four sizes only.

The Huron Red Hot Furnace is suitable for hard or soft coal. We do not sell a wood burning furnace. The casing as quoted in the table of prices is 28 gauge galvanized iron, lined with tin around radiator section. While every furnace requires a casing, yet we quote both with and without casing to allow the man who does the installing to make his own casing if he so wishes. Casings when supplied by us have the concave top for sand warm air pipes must be taken off side of the top. We do not sell smoke pipe, hot air pipe or cold air pipe.

# OUR Acme CREAM SEPARATOR

Built with four wings, with inside Cylinder

**34<sup>50</sup>**

SUPPLY TANK

A BIG LABOR SAVER

It changes the dairy work from all drudgery to just a little work morning and evening. Saves a world of heavy lifting, pumping of water and fire building. Instead of a number of crocks and pans to wash and scald every day you have only one or two. Instead of several gallons of milk to cool and take care of, you have but sweet cream of the finest quality.

The Acme has reached the limit of simplicity and strength. The parts are few and strong, not a weak delicate part anywhere. Only a few parts to the bowl, nothing hard to understand or to get out of order. It is built for everyday farm use and does not need any expert tinkering to keep it in good condition.

**Convenience.** The supply tank is just where you would like to have it. Low enough so that milk can be poured into the can without splashing, high enough to be out of the way. The crank is in the proper place for easy turning. The bowl is simple and has few parts, and the tinware and tank are made with smooth rounded corners. It is almost nothing to clean and takes only a few minutes time.

The illustration is made from a Photograph and gives you a good idea of the way the Acme Cream Separator will look when set up ready for use on your farm. It is a strong, solid machine, is light running, skims warm or cold milk perfectly, has a low easily filled supply tank and short crank. It is simple and easy to understand, easy to clean and take care of and is always ready for use when you are ready to use it.

The Same Care is used in the construction of our Acme Dairy Cream Separators, and it is made from the same quality material as is used in the standard grades. The bearings and worm wheel gear are of phosphor bronze, spindle is of best steel, all accurately ground and polished to insure easy running.

For Close Skimming and durability, combined with ease of operation, the Acme holds the record. The fat globules in the milk are of different sizes. Machines that will separate the larger ones will leave the small ones in the milk. The Acme machine is particularly fitted to take out globules of all sizes.

# THE Acme WALKING PLOW 9<sup>75</sup>

An example of extremely high quality in a plow for almost any kind of work in Ontario or Eastern Canada. For heavy clay or stony land.

A2-D10. When you buy a plow you are a little more particular than when you buy any other farm implement. The Acme No. 10 will

give you satisfaction under most conditions. It will scour easily in all soils, and turns a perfect furrow; a perfectly balanced plow with no side draft. The points are carefully tempered, not hard enough to break, and not so soft as to quickly dull or bend.

The landside and moldboard of Acme No. 10 are made of soft centre steel hardened by refrigerating process and polished. The share is extra chilled for use in stony or heavy clay ground or sod. The beam is 1¼ inch high, carbon channel steel, with high arch and will not bend.

This plow is an excellent pulverizer, and will work well in old pasture land, clay soils, etc., and is just the thing for deep plowing.

The clevis is of heavy malleable iron with ample adjustment for depth of land. Handles are heavy of first quality stock. The adjustable braces are of steel. The rounds are reinforced with steel stay rods. This plow comes fitted with knife counter, extra share and wrench, weight 146 lbs. **9.75**

# THE "INVINCIBLE" RENOVATOR

It takes the dust and dirt right out of the body of the fabric, from the floor beneath, from within the weave, from the very fibre itself.

**300<sup>00</sup>**

FOR USE IN  
PUBLIC  
BUILDINGS,  
CHURCHES,  
OFFICE  
BUILDINGS,  
HOSPITALS,  
THEATRES,  
LARGE STORES

IT  
EATS  
DIRT

The INVINCIBLE does the sweeping and dusting in one quick operation; there is no flying dust to fill the air and settle on other objects.

Be sure to state the Voltage and whether Direct or Alternating Current, also Cycle and Phase.

**K1-033.** The cleaning is done by a strong current of air which is sucked or drawn up into the machine and with it the dust and dirt which is caught in a receiver and is disposed of after cleaning. At the bottom and front of the machine is a rotary brush which revolves rapidly. The brush loosens all the clinging tight dirt, smooths and straightens out the nap or pile of the carpet. A strong suction of air works up around this brush taking all particles of dust and dirt up into the receiver. A hose may be attached and to that a nozzle or tool into which the air is sucked and with it the dirt as the tool is passed over the carpet, curtain, wall, ceiling or other object being cleaned. The "Invincible" Renovator is mounted on 6 inch wheels with 1 inch rubber tires, the wheels having delicately adjusted, light running, roller bearings. The construction (except the motor) is entirely of aluminum which makes it light and portable. The power is supplied by a small but powerful electric motor. On the motor is a wire cord similar to that on an ordinary electric drop light. Just attach this to a socket as you would an electric bulb, turn the switch as you would to light the lamp and the "Invincible" is ready for work. Full equipment of hose, cord and tools to meet all requirements accompanies each machine. **300<sup>00</sup>** If you prefer the machine without the rotary brush the price is only **265.00**

A Boy  
or Girl  
Can  
Pump It

**K1-032. The Chatham Vacuum Cleaner** consists of a very powerful, though very compact suction pump, a tank with dust trap on the interior, a good length of rubber hose, a brass tube and a peculiar flattened nozzle. The work is done by a lever that a ten year old child can push and pull for an hour at a time. The cleaner will get any room or any house really clean in one-fifth the time and with one-tenth the labor that the old way takes to get it even partly clean. It weighs about 30 pounds and can be conveniently carried from room to room. Built of best material throughout—is strong and substantial. Price **25.00**

# Acme ELECTRICAL VACUUM CLEANER

**K1-031.** This machine is run by electricity and is adapted for the home cleaning. It is wound for direct or alternating current and operates from the ordinary lamp socket, at an approximate cost of one cent per hour. In addition, an extra hose is attached by means of which the dust can be drawn from radiators. The Acme can be carried from floor to floor, as it weighs only 60 lbs. Hose and tools for general requirements accompany each machine. It can be used for cleaning hardwood floors, books, pictures, wall surfaces, draperies, furniture, etc. The cabinet is made of either polished mahogany finish with nickel fittings, or cherry finish with plain fittings. # Department of Carpets, Rugs and Floor Coverings

The prices we quote for high grade goods are **always** exceptionally low. Our Carpet Buyer visits Europe twice a year and procures from the great Manufacturing Centres a large variety of Carpet fabrics, our special facilities obtaining for us the advantage of showing many designs, styles and colorings a season in advance of all others. Also many patterns are private to us and not procurable elsewhere in Canada, thus making this a store to which all Canada should come for Carpets. We show in the following illustrated pages, several lines of Carpets, Rugs, Linoleums and Oil Cloths, which we consider to be of exceptional value. The one thought in making all the prices has been to produce values magnetic in business bringing. We trust you will benefit thereby. We endeavor in this Catalogue to present to our customers the principal lines carried, but of course there are of necessity many things omitted. ## Prices for Sewing Carpets

Sewing all carpets 3c yard, with an additional charge of 5c for each mitre on bordered carpets. In the case of heavy carpets, especially Axminsters and Wiltons, we recommend that bordered carpets be cut and sewn on the flat. It is done in this way: All surplus carpet at mitres and ends of widths (ordinarily turned under, making two thicknesses) is cut off and the edges oversewn or serged. When sewn together this makes the carpet or rug flat, it has no double thickness anywhere. When done in this way the charge is 3c yard for sewing, with \$1.50 extra for rugs size 10 ft. 6 in. x 12 ft. and under, larger

## BE CAREFUL IN TAKING MEASUREMENTS

YOU cannot be too particular in taking measurements for carpets, especially so if they are to be bordered, as bordered carpets can not be turned under, they should fit exactly. Draw a diagram of rooms to be bordered, also of rooms or halls requiring more widths in some parts than others. It is not necessary to draw to a scale, but give all the measurements along base exact to 1/2 inch, making no allowances; also the total length and width of room in centre and through folding doors (if any), and make sure that short measurements along base, etc., agree with the through measurements. Draw a line across irregular bay windows or jogs, and you will have an accurate base to measure from. Locate all doors and jogs and give depth of each so we can sew on carpet or filling for same if desired, also designate front of rooms and state which way you wish widths to run.

When the room is of such a size as to require a fraction of a width (in addition to the full width used), we will be obliged to piece it in one or two places unless you are willing to pay for a full width. In such cases state same on your order and we will send balance of width with your carpet. If you wish to have several connecting rooms covered, make a plan of same on one sheet, showing them in their true position. By being careful in taking measurements and seeing that they prove before sending in the order, you will perhaps save the delay of our sending back the plan for remeasurement, as we will not cut the carpet unless the sizes prove correct. In measuring circular or winding stairs, always measure on the longest side, where the outside edge of the carpet would be.

It lists nothing but first quality, pure, wholesome foods of which we give sixteen ounces to the pound, and at prices that mean a great saving for you.

## FREE TRANSPORTATION AND THE EATON LIBERAL GUARANTEE

Remember that with the exception of flour, salt, sugar, vinegar, cereals, fresh vegetables and fruit we will pay the freight charges on an order of twenty-five dollars or over. On arrival of the goods, if they do not meet with your approval in every particular, send them back to us and we will pay transportation charges both ways, and refund your money in full. You will readily see that you are running no risk whatever, so why hesitate about sending us a trial order?

## LET US BE YOUR GROCERY STORE

We give you the most absolute assurance that we furnish goods of the highest quality only. Our sources of supply and thorough inspection insure your getting the purest and most wholesome groceries; and our methods of handling insure their reaching you absolutely clean and in their original freshness, with full weight in every instance.

### EXCEPTIONAL COFFEE VALUES

We purchase the green beans direct from the growers, and thus make our own selections. These beans are sorted, graded, and roasted by our own experts just as you order it. When purchasing from us you get a fresh, newly-ground coffee with its original strength, and not one that has laid in the store for months. Buying, as we do, direct from the producer the middleman's profit is eliminated, or in other words, we leave it in your pocket.

### ME-JAVA BLEND MOCHA AND JAVA COFFEE PUT UP IN AIR TIGHT TINS

A Combination of Pure Mocha and Java Coffee  
Our Special, per lb. **32c**

This Coffee is a blend of fine old Mocha and Java, well matured and containing no acidity. In making up this blend we offer you a delightful, rich, smooth flavored coffee, admirably adapted to suit the tastes of those who like good coffee. While this coffee has plenty of body it does not possess the highly stimulating effect of heavy coffee. The very finest of berries is used in this blend, and with the majority of people it will prove just the coffee you want.

### HAVE YOU TESTED OUR TEAS?

If not there is a treat in store for you. We buy first crop goods direct from the finest tea gardens in India and Ceylon. Our purchases are so large that we receive special price concessions, the direct advantage being the low prices we quote to you. Our teas are delightfully appetizing, and possess that pleasing flavor found only in teas of the best quality. The first cup of Eaton's Blend will convince you that you are getting value such as you have never received before.

### PALAWAN BLEND INDIA AND CEYLON TEA **23c**

If you have been dissatisfied with the poor flavor and lack of stimulating strength, the tea you receive from us will surely be pleasing to you. Furthermore, we sell teas on the closest margin of profit, and buying direct from first hands and selling to you at one small margin of profit enables us to give you such qualities as you have not before been able to secure. If you have been paying a higher price than this for your tea, include a can of our 23c Palawan with your next order and if, after trying it, you are not perfectly satisfied with it, remember that you may return it to us, and we will refund the purchase price.
